

HARSHIT CHUGH

ASPIRING DATA ANALYST • BCA STUDENT

PROFILE SUMMARY

A Second-year BCA student at IITM, Janakpuri (affiliated to Guru Gobind Singh Indraprastha University) with a strong, hands-on foundation in Python, machine learning, and data visualization. Has independently built and documented a portfolio of end-to-end data science projects — spanning sentiment analysis, classification, and regression — and a Power BI dashboard for business analytics. Certified by EY/Microsoft in AI skills and actively growing SQL expertise. Eager to bring analytical rigor and a fast learning curve to a data analyst internship or entry-level role.

PROJECTS

ChurnSense — Bank Customer Churn Prediction | *Machine Learning*

- Built a classification model on the 10,000-row Churn Modelling dataset to predict customer attrition.
- Debugged model performance issues (data leakage, encoding errors) to produce a reliable, well-validated classifier.

Customer Churn Dashboard | *Power BI*

- Designed an interactive Power BI dashboard visualizing churn drivers and customer segments from the same dataset.
- Built KPI cards, segment breakdowns, and filter-driven views to surface actionable retention insights.

GradeSense — Student Performance Prediction | *Regression Modelling*

- Built a multiple linear regression pipeline and benchmarked six algorithms to predict student performance.
- Compared model accuracy to identify the best-fit approach for the dataset.

SentiScan — Amazon Reviews Sentiment Analysis | *NLP / Machine Learning*

- Built and deployed a complete NLP pipeline (TF-IDF with bigrams + model-comparison training) that classifies Amazon product reviews by sentiment — live at sentiment-analysis-wnox.onrender.com
- Authored a full formal project report covering problem synopsis, methodology, and results.

EDUCATION

Bachelor of Computer Applications (BCA) | 2025 – 2029 (Second Year)

IITM, Janakpuri, New Delhi — affiliated to Guru Gobind Singh Indraprastha University (GGSIPU)

RELEVANT COURSEWORK

- Database Management Systems (DBMS)
- Data Structures & Algorithms
- Web-Based Programming (PHP)
- Applied Mathematics & Statistical Analysis

ACHIEVEMENTS & ACTIVITIES

- Completed my Summer Training from Shapemyskills by DUCAT (offline) at campus.
- Delivered a technical presentation on "Types of Binary Trees" (DSC) in my college.
- Regularly publishes project milestones and certifications on LinkedIn to document a public learning journey.

CONTACT

Rohini, Delhi, India

TECHNICAL SKILLS

- ▶ Python (Pandas, NumPy)
- ▶ SQL
- ▶ Machine Learning (Keras, TensorFlow)
- ▶ Power BI — Dashboards
- ▶ Data Structures & Algorithms
- ▶ DBMS
- ▶ PHP / Web Programming
- ▶ MS Excel & Statistical Analysis
- ▶ Jupyter Notebook

CERTIFICATIONS

EY / Microsoft — AI Skills Passport

HP LIFE — Networking Essentials

AINCAT 2026 — Rank Certificate

LANGUAGES

English — Professional

Hindi — Native
